Fly Koromo to the Moon!

Good day, Tokumi here, with my 49th Saki book.
This book's for Saki-chan-Koromo-chan and Haji-To. Both the demon combo and the master-servant pairings are cute.

Anyway, with the Saki-Koromo combination, it is pretty hard to show Saki-chan's small build,
or perhaps I'm just bad at it... I wanna show that Koromo-chan's titchy, but Saki-chan's titchy too...
That small duo are simply, just so cute...

The title's ripped off from "Fly Me to the Moon!", but the contents have practically no link to that.
Nina's so cute.

I ended up not mentioning anything aside from their cuteness as always, so do excuse me for that.
I will be glad if you enjoy this, even the slightest bit.
